photos by Rob Trubia

Brig. Gen. Ted McFarland, Electronic Systems Center vice commander (above), speaks at the POW/MIA ceremony held Sept. 18 outside the Patriot Dining Facility. Airman 1st Class Tasha Giles (right) who represented the Air Force during the ceremony, salutes after placing a rose in a vase.

## POW/MIAs honored in solemn ceremony

by Celeste Brooks  
66th Air Base Wing

More than 200 people gathered to hear retired Navy Commander Tim Sullivan speak at Hanscom's POW/MIA ceremony Sept. 18.

Col. Chris Anzalone, 66th Air Base Wing commander, narrated the ceremony which began with posting of the colors by local university and high school ROTC members. Retired Col. Amos Townsend of New Hampshire, whose niece is listed as missing in action, led the crowd in the 'Pledge of Allegiance' and Tech. Sgt. James Boubonis, the Orthodox Church Representative on base, gave an invocation.

Lt. Col. David Thompson read a poem entitled, "A POW's Prayer," written by Joanna McKenzie. The poem explored the POW's terrifying fear of being forgotten. The answer — no, we will not forget you —

was expressed. In the song, "On Eagle's Wings."

Brig. Gen. Ted McFarland, Electronic Systems Center vice commander, then introduced Sullivan, who was a POW in Vietnam for over five years. Sullivan's many decorations include the Silver Star, two Legion of Merits, two Bronze Stars and two Purple Hearts.

Sullivan first expressed his deep appreciation to those present for their continued support in the search for POWs and those MIA. He also thanked those who had worn POW bracelets during the Vietnam War, because the bracelets showed the Vietnamese that POWs were important to the American people and the American government. The American POWs were treated much better after that and according to Sullivan, that improved treatment saved many lives.

Sullivan then thanked the former POWs of World War II and the Korean War. A

compilation of the things that happened to these POWs was developed into the Code of Conduct.

"Lessons that were learned the hard way by the POWs from World War II and Korea were transmitted to the people before they went to Vietnam. They were able to take those lessons embodied by the Code of Conduct, and put them to good use. They definitely saved us a lot of aggravation, so if there are any World War II or Korean POWs in the audience, I thank you personally," he said.

"This country winds up being the home of the brave, the land of the free, because of the people involved and because the people were willing to sacrifice and willing to do what was necessary," he said. "We have to remember this land would not be the land of the free, you would not have what you have today if it wasn't for these people who made these types of sacrifices. We are the land of

the free because when it's been necessary, we've been the home of the brave."

Afterwards, Leonard Mulsman, Jewish Layleader, read Psalm 23. The Roll Call of those missing from Massachusetts was read by Chief Master Sgt. Michael Kerver, ESC senior enlisted advisor. A representative of each service branch placed a rose in a vase, offered a slow salute, then faced the POW/MIA monument. For each name read, a bell rang and the representative gave a slow salute, honoring those who are missing.

When the roll call was completed, the Patriot Honor Guard gave a 21-gun salute and Senior Airman Eric Proper and Airman 1st Class Tony Godoy played "Taps." Cathy Duggan, Officers' Wives' Club president sang "America the Beautiful," and the Enlisted Wives' Club vice president, Jean Pelletier, presented a wreath donated by the OWC and EWC. Capt. Dennis Saucier, the Protestant Chaplain, gave the benediction.

scorching start**

## Straight Talk

Straight Talk provides two-way communication between Hanscom's 66th Air Base Wing commander and people on base.

A 24 hour-a-day telephone line and E-mail account (STRAIGHT TALK) are set up as ways for Hanscom's population to submit questions, com-

plaints or com-

ments, anonymously, if desired. All concerns are personally reviewed by the wing commander. However, the quickest and most efficient way to communicate comments or complaints is to go right to the source. To assist you, we've listed points of contact and telephone numbers for several key support organizations.

Also, don't forget your supervisor, commander or first sergeant — they're there to help you.

If you are not satisfied with

the response you receive, or are unable to solve the problem, please call the Straight Talk hot line at 3-3732.

## Watch where you step

**Q** I live in Scott Circle and we're constantly stepping in dog poop in our front lawn, and in our neighbor's. Our children can't even play outside on the front lawn or on the side of the house because of the dog messes. There are a couple of neighborhood children who walk their animals and don't pick-up the messes. We've asked them to pick-up after their pets time and time again and they don't do anything. We don't know where they live and it's quite an annoyance. We have a dog and we clean up our own mess. I just wish

others were as courteous.

**A** I'd like to start by thanking you and all of the other responsible pet owners who conscientiously pick-up after your pets. It is difficult to enforce our pet policy without your help.

To help us correct your neighborhood pet issue, we need your assistance to find out the names, description of the pet and at least addresses of those irresponsible pet owners. Please call this information into the housing office at 3-4590, along with the time and location of the incident, so we can follow-up.

The privilege of living on base comes with the responsibility of being a good neighbor. Irresponsible pet owners

who continuously break the rules will be asked to remove their pets from the installation or show cause why they should be given the privilege to live on base.

Once again, thanks to all our responsible pet owners.

## A 20 hole golf course?

**Q** I'd like to make you aware of the fact that there's a large hole in the ground adjacent to the fifth (Blue) tee box at the Patriot Golf Course that concerns me. The hole is 18 inches across and two feet deep and it's a serious safety problem that, if not corrected, could cause an accident. A similar situation exists along the water's edge of hole number three close to the green. Thank you in advance for correcting this situation.

**A** Thanks for making me aware of these discrepancies.

The first hole you mentioned, that's located along the fifth tee box has been covered temporarily with wood. This hole (an access point to the irrigation system) will be permanently covered once the irrigation renovation project is completed within the next few weeks. This project will greatly improve golf course conditions for the remainder of the golfing season and for up-coming seasons.

The hole along number three has been filled and re-seeded and it will no longer be a safety problem.

Don't forget that the Pro Shop is open until Christmas Eve for your holiday purchases even if the golf course is closed ... call 687-2396 for winter hours.

## To type or not to type ...

**Q** I have a question about mailing. Recently, I mailed a 3.5-inch disk mailer. I was very careful and I addressed everything very legible and it said "Official Business," etc. It came back from BITC several days later marked with a form letter that said: "mail cannot be sent off base if it's not a computer-generated label or a typewritten label. It can only be handwritten in wartime." The time it took for this mailer to get back to me and the time required for me to find a computer-generated label probably cost the government \$50.

**A** I want to apologize for your mail being returned to you BITC should have mailed your package and followed-up with a discrepancy letter to remind you to type your labels for all future mailings.

Our directives require that all outgoing mail have typed addresses. The reasoning behind this is efficiency ... a typed address moves more efficiently through the mail system than a handwritten address does. BITC personnel have been briefed to accept these handwritten letters on a case by case basis.

## The only one in the sky!

"All American," the world's only fully restored and flying B-24 Liberator soars over the New England coast. "All American" and the B-17 Flying Fortress "Nine-O-Nine" will arrive at Hanscom at 3 p.m. Thursday and will remain on public display at the flight line until Sunday. These venerable World War II bombers are owned and operated by the Collings Foundation, a non-profit educational organization. Their four-day visit to Hanscom is sponsored by the Paul Revere Chapter of the Air Force Association and by the Company Grade Officers' Council. The airplanes will be open to the public during the following hours: 3 p.m. to 6 p.m. Thursday; 8:30 a.m. to 6 p.m. Friday and Saturday; and 8:30 a.m. to 1 p.m. Sunday.

## The Electronic Systems Center's Hansconian

The Hansconian is published by Community Newspapers, a private firm in no way connected with the U.S. Air Force, under exclusive written contract with Hanscom Air Force Base, Mass.

This commercial enterprise Air Force newspaper is an authorized publication for members of the U.S. military services. Contents of the Hansconian are not necessarily the official views of, or endorsed by, the U.S. government, the Department of Defense or the Department of the Air Force.

The appearance of advertising in this publication, including inserts or supplements, does not constitute endorsement by the Department of Defense, the Department of the Air Force or Community Newspapers of the products or services advertised.

Everything advertised in this publication shall be

made available for purchase, use or patronage without regard to race, color, religion, sex, national origin, marital status, physical handicap, political affiliation or any other non-merit factor of the purchaser, user or patron.

Editorial content is edited, prepared and provided by the Public Affairs office for Electronic Systems Center at Hanscom under Air Force Materiel Command. All photos are Air Force photos unless otherwise indicated.

### Submitting articles

Articles must be submitted by e-mail ([hansconian@hanscom.af.mil](mailto:hansconian@hanscom.af.mil)) or brought in on a 3.5-inch floppy disk or a zip disk to Bldg. 1606, Room 110. Submissions must be received at least one week prior to each Friday's publication.

### Paid ads

To purchase a display ad call Ann Reynolds at 978-371-5723.

### Classified ads

Hansconian free classified ads are available to

anyone affiliated with the base. Ads run for two weeks.

Business and rental ads are available for a fee. Call (781) 433-7940.

To place an ad, first complete a classified ad form. Forms are available in the ESC Public Affairs Office, Bldg. 1606, Room 109.

Next, mail the form through BITC to ESC/PA, fax a copy to Theresa Feely at 3-5077 or hand-carry it to the above location. Deadline is noon Friday.

For more information, call the Hansconian office at 3-3912.

### Delivery problems

Call 1-800-722-1914 for problems or questions concerning newspaper delivery to base housing.

Call the Hansconian office if you have questions concerning newspaper delivery to base buildings.

### Hansconian On-line

Visit the Hansconian on the world wide web at [www.hanscom.af.mil/Hansconian](http://www.hanscom.af.mil/Hansconian)

# Hanscom supports hurricane relief operations

by **Dave Pearson**  
ESC Public Affairs

A team from the National Disaster Medical System is ready to support hurricane relief operations resulting from

Staff Sgt. Dave LeBlanc (right) and Staff Sgt. James Lopez, reservists from the 85th Aerial Port Squadron, load medical supplies on a pallet waiting on Hanscom's flightline.

damage by Hurricane George. The team can't depart on the mission until it is determined where they are needed most.

Defense Medical Assistance Team 1 was alerted Sunday night along with the 85th Aerial Port Squadron, a Hanscom Air Force Reserve unit which loaded the team's equipment and prepared the C-141 cargo plane to transport them to disaster sites at either Saint Croix, U.S. Virgin Islands, Puerto Rico or Southern Florida.

Once there, according to John Healey with United States Public Health and chief of operations for the team, it will set up a civilian "MASH" unit around the existing medical facility. "We're going to be the first team in," he said.

Dr. Susan Briggs, a trauma surgeon at Massachusetts General Hospital in Boston is commanding the team. The executive officer is Army Reserve nurse 1st Lt. Jack Towney. The members of the team are volunteers from the metropolitan Boston area.

Made up from parts of the Department of Defense, United States Public Health, Veterans Administration and the Federal Emergency Management Association, the team last deployed to Saint Thomas. There, it performed a similar mission to this one. "The hospital in St.

photos by Dave Pearson

The supplies and personnel will be transported on this C-141B Starlifter, the "City of Tacoma." The aircraft is based at McChord AFB, Wash.

Thomas was devastated — was out of commission. We built a hospital around it until it was back in shape," said Healey.

"We can basically perform minor surgery ... handle minor injuries," said Healey. Serious injuries will be airlifted to hospitals away from damaged areas. Healey explained that they try not to keep patients at the disaster site because of the psychological effect of the hurricane damage. They will handle anyone that can be treated and released he said.

The mission is expected to last between 10 and 14 days.

## AFRL sensors directorate announces annual award winners

by **Dr. Steven D. Mittleman**

Deputy Chief, Electromagnetics Technology Division Sensors Directorate Air Force Research Laboratory

The Air Force Research Laboratory, Sensors Directorate, held its annual awards ceremony Aug. 13 at Wright-Patterson Air Force Base, Ohio, with a video simulcast to its geographically separated branches and divisions at Rome, N.Y. and Hanscom.

A plaque and a cash prize were awarded for each category.

Categories and winners include:

**Dr. Charles R. Ryan Memorial Award:** Capt. Mike Noble.

This award recognizes scientific efforts and achievements of Air Force basic in-house research and recognizes people who

make outstanding contributions in this area. Noble and his colleagues at Wright-Patterson AFB worked on the design growth and testing of vertical cavity surface emitting lasers. This is a new class of lasers that will significantly improve future optoelectronic systems necessary for Air Force needs.

**Chief Scientist's Awards:** Michelle Champion, Marat Davidovitz, Peter Franchi, James Kenney and Hugh Southall.

This award recognizes outstanding in-house achievements in exploratory or advanced technology development. The team developed a light weight antenna feed for an ultralite phased array application.

The product of this effort will be a significant improvement for onboard unmanned aerial vehicles and satellite borne communi-

cations antennas.

**Peter R. Murray Memorial Award:** Paul Pellegrini.

This award recognizes outstanding organizational management that enables mission accomplishment. Pellegrini successfully implemented a challenging senior management directive to create a new branch in the Sensors Directorate. He expertly managed a technically diverse, geographically distributed research group which he formed from groups here and at Wright-Patterson AFB.

**Best Patent of the Year:** Helen Daulais, Andrew Davis, Joseph Lorenzo and Kenneth Vaccaro.

This team developed a surface passivation technique for indium phosphide crystals, an important optoelectronic material. The patent will enable increased yield and

higher reliability for a large class of electronic devices necessary for millimeter wave communications systems.

**Secretary of the Year:** Nancy Spaulding.

Spaulding was the major force in taking over and sustaining the day to day operations Electromagnetic Technology Division during the reorganization of the new Air Force Research Laboratory, allowing the managers to concentrate on important technical issues.

**Sustained Professional Society Service Award:** Joseph Lorenzo.

Lorenzo is a founding father of a prestigious technical conference devoted to indium phosphide and related materials. He was recently honored as the 'Outstanding Contributor of the Decade' by the conference.

## Scientists think these bores are not at all boring

by **Beth Fullerton**

Air Force Research Laboratory

We all know people, places and things that could win the title of bore, but defying its title, a mesospheric undular bore can be quite exciting.

This newly discovered phenomenon could be the explanation for a spectacular transient internal-wave event which was captured on a four-color, all-sky airglow imager by Michael Taylor of Utah State University at Haleakala, Hawaii, Oct. 10, 1993. The observation was made at the Air Force Maui Optical Station during the Airborne Lidar and Observations of Hawaiian Airglow Campaign under joint National Science Foundation and Air Force Research Laboratory sponsorship.

Although internal bores have been seen in the troposphere (the lowest region of the atmosphere extending up roughly six miles) and in the ocean, there have not been any reports of observations at higher altitude.

But when Edmond Dewan and Richard Picard, scientists at Air Force Research Laboratory's Space Vehicles Directorate at Hanscom, saw this particular photo in 1994, they wondered if this could be the first reported observation of a bore in the mesosphere some 50 miles above the earth. It looked just like an undular

bore. But they needed more than just looks.

After months of research using theories for bores and prior measurements on bores in water channels, the evidence provided by the team's equations — equations that characterized wavelength, inversion duct thickness and speed of the phenomenon — added up to a strong case for their theory about the spectacular wave event; it didn't just look like an undular bore, it acted like one.

An undular, or wavy bore is a phenomenon which occurs in a fluid and consists of waves travelling in a fixed pattern behind a front. When a pebble is dropped into a pond, ripples move out, decrease in height and disappear within a ring that spreads out in time but in a bore, the patterned waves move as one across an area without dissipating. In other words, the undular bore is associated with waves which move with the speed of the front and are locked to it.

The bore and its waves appear to flow into calm water, or in the case of the mesosphere, calm air. In addition, this mesospheric event was seen at four altitudes simultaneously and a very striking complementary effect was observed. At the lower two altitudes, hydroxyl and sodium air glow showed an enhancement of brightness extending behind the front; at the upper two altitudes, molecular oxygen and

atomic oxygen displayed the opposite effect. Where there were bright wave crests in the two lower layers, there were dark troughs in the two upper layers and vice versa. The hydroxyl and sodium images were like "negative images" of the molecular and atomic oxygen images.

Dewan and Picard's bore theory accounts for this behavior because the bore is pushing the surrounding atmosphere upward at higher altitudes and pushing it downward at lower altitudes concurrently.

No one knows what causes the undular bore event to start rolling in the first place high above the earth, at least not yet anyway but the AFRL duo have their theory about the mysterious phenomenon and its beginnings.

And since Dewan and Picard have reported their explanation, a number of other observers have come forth with images of potential mesospheric bores "We have found quantitative formulas that explain the Haleakala phenomenon as an undular bore," said Dewan. "We've published our findings and if our predictions aren't true, our theory will be disproved. We're comparing some of the new observations with our models and encouraging other researchers to do the same."

Dewan and Picard find all of this far from boring.

## No hot water for billeting, dorms

by **Donald J. Loureiro**  
Utilities Superintendent

There will be a base wide steam and chilled water outage from today at midnight to 2:30 p.m. Sunday.

This outage is necessary to perform annual steam line maintenance. All base facilities connected to the central steam plant, most notably the dormitories and billeting facilities, will be without hot water and heat during this period.

Residents of the affected areas can use the shower facilities at the Sports and Fitness Center, however those facilities will only be available during normal operating hours.

The housing areas will not be affected.

Questions may be directed to 3-2232.

# AF Research Laboratory scientist wins 1998 Fellows Award

by **Beth Fullerton**  
Air Force Research Labs

Dr. William Burke, a scientist at the Air Force Research Laboratory here has become an award-winning fellow.

Burke is the recipient of the 1998 AFRL Fellows Award in recognition of his outstanding contributions to the study of plasmas, electric fields and energetic charged particles in the magnetosphere. He is internationally recognized for his research in space physics.

Burke's work in measuring electric fields in the ionosphere is of significant interest to the AFRL, the Department of Defense and the general public as it predicts the causes of space plasma effects on the operation of surveillance and communications systems. For instance, the sun's radiation creates plasma in the ionosphere that electrical fields transport to other locations where it can become an obstruction in space to communication signals.

Being able to predict this phenomenon gives engineers time to move communication paths around such hazards. "We are

very pleased that Bill is receiving the recognition he deserves for his outstanding contributions to Air Force research on space weather and its impacts on Air Force systems," said Dr. Robert Morris, a branch chief from AFRL who nominated Burke for the award.

From early on, Burke's work has reflected his varied knowledge and broad interests. In the 1970s, he was involved in NASA drought studies and moved to theoretical analysis of auroral arc electrodynamics (northern lights) to analysis of plasma data acquired by sensors located on the surface of the moon.

Beginning his AFRL career at Hanscom in 1975, Burke began processing data collected by electrodynamic sensors on the polar orbiting S3-2 satellite; his results helped place AFRL on the scientific map as a serious contributor to space plasma studies.

His most recent project was with the Tethered Satellite System where he played a lead role in the scientific analysis of the data taken during the two shuttle flights.

The mission, conducted with NASA and

the Italian Space Agency provided an opportunity for Air Force scientists to study the interactions of large bodies in space plasmas under a wide variety of controlled but stressful conditions.

Although he has published over 100 scientific articles, getting published is not his primary goal. "Writing is important," said Burke, "not just to publish, but to help understand what must really be happening to explain our measurements."

Burke believes his work has been acknowledged because of his opportunities at AFRL to engage in a wide breadth of space research and to be able to make roadmaps of how seemingly diverse research efforts are actually related to one another.

A ceremony honoring Burke and three other AFRL Fellows Award recipients will be held Oct. 21 at Wright-Patterson AFB, Ohio.

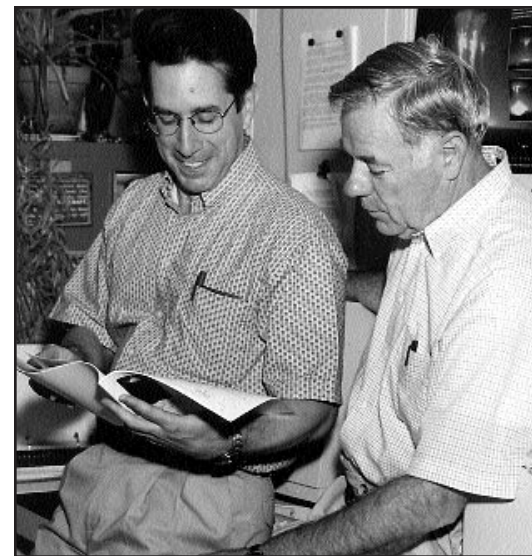

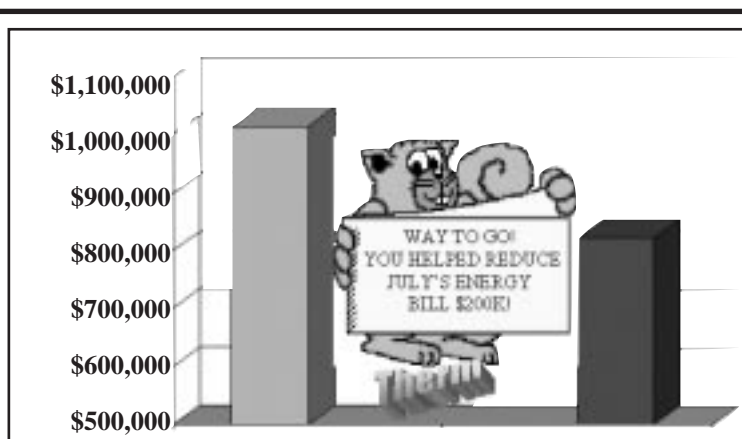

photo courtesy of AFRL

**Dr. Bill Burke (right) and Dr. David Hardy go over result papers on the Tethered Satellite System missions. Burke recently won the AFRL Fellows award for his work.**

## July's energy cost

Hi! I'm Therm the energy saving squirrel. Did you know that President Clinton signed an executive order that requires all federal facilities to reduce energy consumption? In 1994, EO 12902 mandated a 30 percent energy reduction by the year 2005 from a FY85 baseline.

## Church to host information fair

All are invited to the Chapel Annex at 12:30 p.m., Oct. 7, for the Orthodox Church Information Fair.

Chaplain (Maj.) John Tkachuk, an Orthodox priest and an Air Force Reservist attached to Hanscom, will show a video on the Orthodox Church in America, give a short talk, and answer any questions about Orthodoxy.

Light refreshments will also be served.

For more information call Tech. Sgt. Jim Boubonis at 274-8714.

## Israel speaks to 'Old Crows'

Retired Maj. Gen. Kenneth R. Israel will address a luncheon meeting of the National Military Intelligence Association and the Association of Old Crows on "The Future of Airborne Reconnaissance" Oct. 9 at 11:30 a.m. in the Officers Club. Cost is \$14. RSVP by Oct. 2 to Edie Singleton at (781) 861-6414.

# ESC schedules half day training

by Richard Haycook  
Chief Architects Office

The Electronic Systems Center’s Chief Architects’ Office will be the principal theme for the next Air Force Center Training Half Day scheduled for Oct. 1 from 8:30 a.m. to noon in room 1S100, S-Building, MITRE complex.

The office was formed to establish and evolve the architectural framework for the Air Force’s Integrated C2 System.

The presentations will focus on information that ESC and MITRE staff need to know for building their part of the Integrated C2 System. The office invites all staff and managers, both ESC and MITRE, to participate in these sessions.

The agenda includes four CAO-related presentations:

“**CAO Overview**” (8:30 to 9:10 a.m.) Eric Skoog, ESC’s Chief Architect, will present a summary of the office’s functions and how it fits into ESC.

“**Architecture Councils and Domain Engineering**” (9:10 to 9:50 a.m.) Jerry Friedman, Deputy Chief Architect, will guide a look at the 13 active architecture councils and how they interact

with ESC programs. Also, he will introduce the relatively new ESC Domain Engineering activity and its role in building the IC2S.

“**Common Operating Environment**” (10 to 11 a.m.) Julie Surer, DII-Air Force COE Chief Engineer, will lead an overview of the DII COE effort and its changes in the last six months.

“**C2 System Target Architecture Version 2**” (11 a.m. to noon) Barry Smith, C2STA Architect, will emphasize the many changes to the C2STA since Version 1 was released in February 1998.

In addition to the CAO-related topics at the MITRE complex, two other sessions are scheduled for the O’Neill Auditorium. At 8:30 a.m., MITRE Executive Director for AF C2 Systems Joe DeRosa will present “**The Direction of Dynamic Planning and Execution**,” followed by, “**Real Time - Not Your Father’s Real Time**” at 10:30 a.m. led by Consulting Scientist Doug Jensen.

This training day is sponsored by the MITRE Air Force Center Training Committee and the ESC Chief Architects’ Office. For more information, contact Ed Wigfield of the Training Committee at 186-5660, or Jerry Friedman at 3-6807 or Richard Haycook 3-6839 of the Chief Architects’ Office.

## College scholarships offered

The Aerospace Education Foundation is offering 30, \$1,000 scholarships to spouses of Active Duty Air Force, Air National Guard and Air Force Reserve members.

Applications are available at the Education Office. The deadline is Oct. 30. For information call 3-2022.

## Contracts change

by Staff Sgt. Douglas E. Punzel  
Contracting Specialist

The Base Contracting office will not renew the base safe repair contract for fiscal year 1999.

Effective immediately, all safe or lock repair needs will go to the Base Locksmith John “Tex” Causey at 3-2197. If you require further information or parts for your safe, you can find it on the Internet at <http://locks.nfesc.navy.mil>.

In addition, the base contracting office will no longer maintain the typewriter repair contract.

Beginning Oct. 1, all organizations will use their IMPAC Visas to place service calls for repair. Organizations can call any business that services their machine and accepts Visa as payment.

For information concerning safe repair or a list of businesses for typewriter repair, call Staff Sgt. Doug Punzel at 3-3362.

# Raiders off to hopeful, but shaky start

by Daryl Mayer  
LBH Raiders

The Lexington, Bedford and Hanscom Raiders Pop Warner football and cheerleading teams scored another victory along with four more defeats in their second week of action Sept. 20 at Crumb Memorial Field in Lexington against Wakefield.

## ***"E" Team (age 7 to 9 years)***

In their second game, the boys of "E" team struggled despite what their coach called "inspired play" by Stephen Surette, Kenny Johnson, Dean Chaffee, John Stocki, Chris Eagn and Nick Larsen. Still, at the end of the day the boys fell victim to Wakefield 26 - 0.

Despite the happenings on the field the enthusiasm of cheerlead-

ers Jessica Senneville, Heather Pisano, Brittany Russell, Julia Taylor and team captain Kayla Daly never waned. The squad was again joined by Kristina Jaillet.

## ***"D" Team (age 8 to 10 years)***

The "D" team played a tough game but also lost to Wakefield 18 - 0. After the visitors gained an early lead, Jacob Andrews, who scored a touchdown last week, led a defensive effort along with Mike Sramowicz, Chris Larsen, Joshua Cronan, Ryan Surette, Sean Sullivan and John Jaillet which shut down the Wakefield offense.

## ***"C" Team (age 9 to 11 years)***

The "C" team suffered another disappointing loss 26 - 0.

Yet their coach was impressed by the tenacity of several of his players

including Mike Ferro, Mike Grant, Alfred Miller, Alex Gearth, Ryan Polosky and Jonathan Najarian displayed.

## ***"B" Team (age 10 to 12 years)***

The "guts" award of the day went to the "B" team in their 12-6 loss to Wakefield.

Because the team only had 12 players show up for the game, the Raiders were forced to play "ironman" football with every player on the field for every play of the game.

In spite of their disadvantage, the Raiders nearly pulled off a victory after Tim Wilson scored a touchdown. The defense also stepped up to the plate led by Joey "Psycho" Merlin's two sacks and inspired play from Billy Waters, Jason Kashmanian, Alex Klinoff

and Kit Thomas.

The only people on the Raider's sideline were Taylor Demmert, Alicia Chappell, Lindsay Cotton, Kristyn Bischoff and Katie Sterling of the "B" team cheerleading squad. Somehow, the squad's cheers helped keep the player's spirits high throughout the grueling match.

## ***"A" Team (age 11 to 15 years)***

The "A" team notched its second win with a commanding 22 - 12 victory over Wakefield.

Led by Steven Nowlin, Justyn Bischoff, Shaun Bourque, Robert Sarian, Ryan Phelan and Emmanuel Thompson, the Raiders scored early and never looked back.

The Raiders were again spurred on to victory by the expert cheers of Amber Allen, Jamie Russo, Lisa Nardone, Heather Blohm and

Whitney Marker.

Anyone interested in seeing some exciting, live football should come out for the Raiders' next game at Crumb Field Oct. 4. The first game starts at 8 a.m.

For more information call the Raiders hotline at 862-4937 or email [LBHRaider@aol.com](mailto:LBHRaider@aol.com).

## Walking can help fight breast cancer

by Maj. Sandy Higgins  
66th Medical Group

A team from the 66th Medical Group will join the fight against breast cancer Oct. 4.

The team will participate in "Making Strides Against Breast Cancer," a five-mile pledge walk in Boston for the American Cancer Society. This is the Nation's largest one-day breast cancer fundraiser.

The clinic, is recruiting people and collecting pledges for a day of "fun raising" for an important cause, on the occasion of National Breast Cancer Awareness Month.

The route starts and ends at the Hatch Shell on Boston's scenic Charles River Esplanade. Registration takes place from 8 to 10 a.m.

If you are interested in joining the team, assisting with the event or offering a pledge, contact Maj. Sandra Higgins at 3-8067 or call the American Cancer Society directly at 1-800-952-7664, extension 4700.

## Hanscom Flame starts 1998 girls soccer season on fire

**by Rich Simpson**  
Hanscom Flame Coach

*Girl's U-12 Soccer Kickoff*

Sept. 12, the Hanscom Flame under 12 girl's soccer team got off to a fantastic start with a 5 - 0 win over Wakefield in an away game.

The Flame showed that they have the potential for a powerful offense this fall. Forward Helen Baker put in the first goal

early in the game and Emily Simpson followed with a score at the end of the first half.

Francesca Lynch did an excellent job in the goal, shutting out the opponent in the first half. In the goal during the second half, Emily Simpson also held Wakefield scoreless while goals were scored by Ashley Davison, Helen Baker, and Molly Stockwell.

Much of the Flame's offense was initi-

ated by key defensive plays from stopper Laura Captain and sweeper Aimee Webb.

*Hanscom Flame Wins Again*

After week two of their season, the Hanscom Flame girl's soccer team has jumped out to an impressive 2 - 0 start. In their home opener Sept. 19, the Flame hosted Lincoln and won 3 - 1.

Flame scores came from forward Helen Baker (twice) and Ashley LaFleur with her

first goal of the season.

Once again, the Flame defense was effective, holding the Lincoln team scoreless until late in the game. Amber Fisher and Stephanie Davison anchored the defense from their fullback positions, squelching most of Lincoln's attack before they could threaten the goal.

# Calendar of Events

## Today

### Retirement

The Commander, 66th Medical Group requests the pleasure of your company at a retirement ceremony honoring Master Sgt. Kent E. Baker today, at 3:30 p.m. in the O'Neill Auditorium.

A reception will immediately following in the Bldg. 1900 Conference Room.

## Tuesday

### Something new for SPOs

The Modeling, Simulation, and Training PAD has developed a new, four-day, C2 Training Management Course to be offered Tuesday to Oct. 2 here. This is a comprehensive course designed for program managers and training managers within the SPO of PAD who are charged with the responsibility of delivering a C2 system to the Warfighter with effective training and training tools.

To register for the course or for information call Herb Mores at 3-9130.

### Tuition assistance deadline

All requests for classes beginning prior to Oct. 1 must be submitted to

the Base Education Office no later than 3:30 p.m. Tuesday. Requests may be submitted by phone, fax, E-mail, or in person. Requests must be submitted by the deadline. Those received late will not receive funds without justification.

### GRE General Exams

The Education Center will administer the GRE General Exams Nov. 9. Individuals interested in taking the exam must register by Sept. 29. The following subject exams are not available: economics, geology, history, music and sociology. The next administrations of the GRE will be Dec. 14, with a registration deadline of Oct. 27, and April 12, with a registration deadline of March 1.

The Education Center will administer the GMAT Oct. 19, registration is closed. The next administration of the GMAT is Jan. 19 with a registration deadline of Dec. 1.

The Education Center will administer the English Composition with Essay CLEP Exam Oct. 15, registration is closed. The next administration of the English Composition with Essay CLEP Exam is Jan. 14. Individuals interested in taking the exam must register by

Dec. 1. Additional administrations of the English Composition with Essay CLEP Exam will be April 8, with a registration deadline of Feb. 23, and May 27, with a registration deadline of April 6.

All exams start at 8 a.m., individuals should arrive at 7:50 a.m. The next GRE, GMAT and English Composition with Essay CLEP exams will be offered in FY00.

Schedule exam appointments through Education Services at 3-3120.

## Upcoming and Weeklies

### Flu season is here

Flu immunizations will be available during the following times at Caritas Health Services at Brighton Marine on base (1609 Eglin Street): Wednesday 1 to 4 p.m., Oct. 3, 9 a.m. to noon, Oct. 7 1 to 4 p.m., Oct. 14 1 to 4 p.m., Oct. 21 4 to 7 p.m., Oct. 28 1 to 4 p.m.

### Boys Town Parenting Course

This course is designed to help parents whose children are at least four years old through the teen years.

Used all over the world the course covers such useful topics as improving self-esteem and construc-

tive problem-solving techniques.

Hanscom will offer this course starting Tuesday to Nov. 10, on Tuesdays from 11:30 to 1 p.m. on base in Bldg. 1605 Conference Room which is located across from the Chapel.

To register or to find out more information, call 3-4617.

## National Domestic Violence Awareness and Prevention Month

October is "National Domestic Violence Awareness and Prevention Month." This year's theme is, "What we do today affects our generation in the future." The theme reflects the idea that incidents of domestic violence traumatizes our children who in turn, express their trauma later on in their own relationships.

Oct. 15 there will be a guest speaker from the Waltham Women's Shelter who will speak on domestic violence and how it affects children. This presentation will be at the Officers' Club from noon to 1 p.m. Admission is free.

## National Depression Screening Day

In recognition of National

Depression Screening Day, Oct. 8, three Bedford agencies will conduct screenings for depression at two different sites in Bedford.

The free screening will include an educational presentation, an anonymous screening test, and the opportunity to review the results of the screening test with a clinician.

Screening tests are available for children, adolescents, adults and older adults. Sign up for the educational program by calling Bedford Youth and Family Services at: (781) 275-7727 or Affiliates for Adult Development (781) 275-2122.

The screenings are free of charge and provide an opportunity to learn about depression and treatment in a non-threatening manner.

## Military and Travel Pay Service

Effective Oct. 1, the Financial Services Office will reorganize the Military and Travel Pay Sections into a Customer Service and Support Section.

In Bldg. 1600, there will be signs posted directing customers to the main service office. Also, the new customer service numbers will be posted and advertised.

# Happenings

## Employment Assistance

❑ Franchising: is it right for you? will be held at the Family Support Center Sept. 29 from 11 a.m. to 1 p.m. A franchise consultant will review the pros and cons of franchising and explain how to select the franchise that best suits your needs, profile and investment range. Bring your lunch.

❑ Veteran Affairs Disability Claims Review will be held at the Family Support Center Sept. 30 from 9 a.m. to 1 p.m. A representative from AMVETS, a veterans' service organization, will assist you in processing your disability claim and answer questions. Call 3-4222 for an appointment.

❑ Spouse Employment Assistance will be provided at the Family Support Center on Monday through Friday. The Career Focus Program manager will assist spouses with career planning, part-time and full-time employment, long distance job search, resume writing and job interviewing skills. Call Jacqui Thomas at 3-4222 for an appointment.

❑ Job Search Networking Group will be held at the Family Support Center Mondays, from 5:30 to 7:30 p.m. Learn how to explore career and job options, obtain leads on employers and job opportunities, and market yourself effectively. Share your ideas with other career changers.

## Parenting

❑ "Stress and Your Child: Helping Kids Cope" will be held at the Family Support Center Tuesday and Wednesday at 11:30 a.m. to 1 p.m. Kathleen Reardon, a licensed independent clinical social worker and a faculty member at the prestigious Simmons School of Social Work, will discuss with parents the causes, symptoms, and danger signs of childhood stress and effective strategies parents may use to help their children deal with stress.

❑ Boys Town Common Sense Parenting Course will be held in the CAPS Conference room., Bldg. 1605 across from the Chapel Tuesday to Nov. 10, every Tuesday, at 11:30 a.m. to 1 p.m. This course is for couples and single parents whose children are from 4 years old through teen years. Cover subjects include finding useful and practical ways to build self-esteem and problem solving. Bring a

bag lunch and call Mary Troy 3-5930 for more information.

## Work and Life

❑ Videos: "Time Management, A Productivity Plan" will be shown at the HAWC Wednesday from noon to 12:30 p.m. Registration not required.

❑ Newcomers' "T" Adventure will be held at the Family Support Center Tuesday from 8 a.m. to 3:30 p.m. Newcomers are invited to a fun, informational seminar to find out what's going on at Hanscom and in Boston. Afterward, ride into Boston with us using the "T". All you'll need is an adventurous spirit and \$4 for bus and subway fares. You may bring a lunch or purchase lunch downtown. This program is part of the community orientation for in-processing; newly arrived service members do not have to take leave to attend. Call 3-4222 to register.

❑ DoD Civilian Smooth Move will be held at the Family Support Center Wednesday from 8 a.m. to noon. Learn about what to expect from the base agencies involved with your relocation. Learn about moving your household goods, filing moving claims, spouse employment, relocation planning, and more.

## Fitness Enhancement

❑ Back Safety class will be held at the HAWC Monday from 9 to 10 a.m. Learn to build a stronger, more flexible back. Call 3-6560 to register.

❑ Carpal Tunnel Syndrome Prevention Class will be held at the HAWC Monday from 11 a.m. to noon. Carpal tunnel syndrome is a health hazard afflicting many office workers today. If you work on a computer and are concerned about injuring your wrists come to this class.

❑ Cholesterol Education class will be held at the HAWC Monday from 1:30 to 2:30 p.m. Excess fat is linked to heart disease and raises the risk of certain cancers. Learn how to reduce risk by reducing dietary fat and cholesterol. Call 3-6560 to register.

## Equal Opportunity Awareness

❑ EO 2000 course will be held in the Social Actions classroom in Bldg. 1217 Thursday from 8 a.m. to noon.

This is one-time mandatory training for

## Religious Activities

**Chapel, Bldg. 1603, 3-3538**

---

❑ **Catholic masses:** Saturdays at 5 p.m., Sundays at 7:30 and 11 a.m. and weekdays at 12:05 p.m.

❑ **Protestant worship:** General Protestant Service — Sundays at 9 a.m.; Gospel Service — Sundays at 12:30 p.m.

❑ **Jewish services:** The first and third Friday of the month from 11:30 a.m. to 12:30 p.m.

❑ **Eastern Orthodox** information contact Tech. Sgt. James M. Boubonis at 274-8714.

❑ **For information** on chapel services, call 3-3538 or 3-3539.

❑ The Jewish High Holy Day period will conclude with the solemn observance of **Yom Kippur-the Day of Atonement**, at sundown, Tuesday and Wednesday, one hour after sundown. Jewish military personnel who do not have temple affiliations in the area may contact Leonard A. Mulsman, Jewish Lay Leader at 3-5968 for home hospitality or Temple placement during the High Holy Days.

all active duty military members and DoD civilian employees.

Call 3-2532 or 3-3796 to sign up for the class. Come and learn your roles and responsibilities in the world of equal opportunity.

## Thrift Shop, 274-8079

❑ Stop in and check out the great deals the Minuteman Thrift Shop has to offer. The recently renovated Thrift Shop, managed and operated by members of the Officer's Wives' Club and Enlisted Wives' Club, is located next to the Commissary. Hours of operation are Thursday, Friday and Saturday from 10 a.m. to 2 p.m. Consignments are accepted from 10 a.m. to 1 p.m. Shop personnel strongly suggest those with items for consignment arrive early as the Thrift Shop reserves the right to close consignments prior to 1 p.m. if the response is heavy. For more information or to leave a message contact Kelly Comeau, Lisa Van Biene or Dawn King at 274-8079.

## Company Grade Officers' Council

❑ Birds and Bars Golf Tournament will be held Oct. 6 at 9 a.m. at the Patriot Golf Course (9:30 a.m. Shotgun Start, 9-Holes, Scramble Format). Lieutenants and captains: \$15, colonels: \$20. There will be prizes and a free picnic immediately following at Memorial Park.

Contact 2nd Lt. Pete Modigliani at 3-

9106), or 1st Lt. Marty Mears at 186-2673 if you're up for the challenge.

❑ Questions or comments? Call President 1st Lt. Craig Parisot 3-3588, Vice-President 1st Lt. Marty Mears 186-2673.

❑ Check out the council's new Centernet web site. It is at <http://esc.hanscom.af.mil/CGOC/orgCGOC.htm>, and is accessible only within Hanscom. This site will serve primarily as a functional site for Hanscom's CGOs.

Anyone with ideas or suggestions about the site should contact Mears at 186-2673.

## Officers' Wives' Club

❑ The Officers' Wives' Club extends a warm invitation to those eligible officers' spouses to become a member.

The club hosts a monthly meeting for social and service purposes. Volunteer opportunities are numerous. Many activity groups are offered to our members as well.

For membership information only call Diane Gavornik at 274-8196.

❑ The Hanscom Officers' Wives' Club will sponsor an **Oriental Rug Auction** Oct. 2 at the Officers' Club.

This auction is free and open to the public. A preview will be from 6 to 7 p.m. with the bids beginning at 7 p.m. There are no minimums on many rugs. Hourly door prizes will be given away to those participants. Hors D'oeuvres are provided. A 10 percent buyers premium will be added to those winning bids.

Come join us for this spirited event and maybe you'll find that rug you've been looking for. Proceeds from this event will benefit the OWC enabling them to support the community.

For information call Wendy Johnson at 274-6575.

## Enlisted Wives' Club

❑ The Enlisted Wives' Club invites all single enlisted people and enlisted spouses to join the club. Our next meeting will be Monday at 7 p.m. at the Community Center.

For information, contact Tricia Kemens at 275-9431 or Celeste Brooks at 274-9039.

## People's Corner

### Defense Information Infrastructure-Air Force (DI)

Welcome to Thomas Cafferty, Maureen Pilat, Marie Seigny, Thomas Siracusa and Gary Weaver. Farewell to Steve Michaels, Laura Pearson, Jack Mosson and Mike Bocash.

Happy birthday to Mark Morrison, Brian O'Connell and Bob Paolucci.

### Comptroller (ESC/FM)

Congratulations to Capt. Richard Stacey on your promotion. Happy birthday Dick Heroux.

Welcome to Marcie McMacken.

### Expeditionary Forces Experiment (ESC/FX)

□ **Sunday Champagne Brunch**, Sept. 27. Adults \$9.95, children \$5 (ages 6 to 12) and kids 5 and under are free! Served from 10:30 a.m. to 1:30 p.m.

## Registration for Congressional Award Program to be held at the Youth Center

Hanscom's young people (ages 13 years 5 months, to age 18) are eligible for this award. The U.S. Congress presents this award to young people who set and achieve goals in four program areas: voluntary public service; personal development; physical fitness; and expedition/exploration activities.

To earn the award, they work with adult advisors to set individual goals and plan activities to reach those goals. It's a fun and interesting way to get more involved in something

they already enjoy or something they'd like to try for the first time. Teens move at their own pace - on their own or with friends.

Exact program requirements for award of either a Bronze, Silver or Gold award are available at the Youth Center. Registration for the Congressional Award will be held at the Youth Center on Oct. 7 from 6 to 8 p.m. This will include a short video overview and staff to help answer any questions you might have.

## Training Responsible Adolescents In Leadership

Does your child enjoy canoeing, rock climbing, high and low ropes courses, or whitewater rafting?

Is there something they've always wanted to do but didn't know how? Have they been looking for a chance to do things you've never done before? Test their limits and explore a whole new world of opportunity.

If the answer to any of these questions is YES, then please have your child come to the first Teen Council meeting on Mon., Sept. 29 at 6 p.m. to discuss new and exciting programs. For more information, please call Kathy at the Youth Center at 3-3739. Tell her you want to talk about TRAIL!

**Tops in Blue  
Nov. 21  
7:30 p.m.**

CFC/Fun Run Tomorrow

Join us Sept. 26 for the Combined Federal Campaign 5 and 10 kilometer Run, sponsored by the Sports and Fitness Center. You can walk or run this event which begins and ends at the Fitness Center. Start time is 9 a.m. for the 5 kilometer and 10 a.m. for the 10 kilometer and everyone is invited!

Registration is \$15 the day of the event, which includes a T-shirt and fitness drink. A traveling team trophy goes to the squadron with the most participants as well as to the unit with the Top five fastest run times. For more information or to sign up call 3-3639.
